SUGENG WAHYUDI

DATA ANALYS
DATA SCIENTIST,
FULL STACK WEB DEVELOPER

ABOUT ME

I'm passionate about data sp I've skills in Data Analysis, and Data Science. Not only that, I'm also a FullStack Web Developer so I can show analysis on a website or dashboard. Besides that, I have the ability to containerize my works and deploy using docker

STUDY

- IBM Data Science Profesional Certificate (Coursera)
- Complete SQL and Databases Bootcamp: Zero to Mastery [2022]
- The Complete Web Developer in 2022: Zero to Mastery
- Complete Guide to Data Science Applications with Streamlit
- Tableau/Power BI (self taught)
- Jagoan Docker(codepolitan)

SKILL & PROJECT

Python, SQL,Tableau, and Power BI
SELF-PROJECT OFFICE DATA (NOT PUBLISHED/SENSITIVE)

Tax Revenue Data Driven Dashboard
Data Driven Dashboard Using Tableau and Streamlit. First data is preprocessed using Python then save the clean data in to Postgresql Database. In SQL, data is queried and processed to data mart. After that, connect Tableau/Power BI or Python Streamlit to that data to make data driven dashboard. Everytime Python script executed data get updated

Docker
CONTAINERIZE AND DEPLOY

Data Driven Web Dashboard then containerize with docker so the application can be easily deployed
